| Standards for Mathematical Content Grade 4 | | enVisionMATH® Common Core Lesson |
|---|---|---|
| Operations and Algebraic Thinking | | |
| Use the four operations with whole numbers to solve problems. | | |
| 4.OA.1 | Interpret a multiplication equation as a comparison, e.g., interpret $35 = 5 \times 7$ as a statement that 35 is 5 times as many as 7 and 7 times as many as 5. Represent verbal statements of multiplicative comparisons as multiplication equations. | SE/TE: Lessons 1-1, 1-3, 1-7 |
| 4.OA.2 | Multiply or divide to solve word problems involving multiplicative comparison, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem, distinguishing multiplicative comparison from additive comparison. | SE/TE: Lessons 1-6, 1-8, 1-9, 1-10, 9-6 |
| 4.OA.3 | Solve multistep word problems posed with whole numbers and having whole-number answers using the four operations, including problems in which remainders must be interpreted. Represent these problems using equations with a letter standing for the unknown quantity. Assess the reasonableness of answers using mental computation and estimation strategies including rounding. | SE/TE: Lessons 1-5, 1-8, 1-9, 1-10, 4-1, 4-2, 5-4, 5-6, 6-2, 6-3, 6-5, 6-6, 7-2, 7-3, 7-4, 7-5, 8-5, 9-1, 9-2, 9-3, 9-6, 10-8 |
| 4.OA.4 | Find all factor pairs for a whole number in the range 1–100. Recognize that a whole number is a multiple of each of its factors. Determine whether a given whole number in the range 1–100 is a multiple of a given one-digit number. Determine whether a given whole number in the range 1–100 is prime or composite. | SE/TE: Lessons 1-4, 11-1, 11-2, 11-3 |
| 4.OA.5 | Generate a number or shape pattern that follows a given rule. Identify apparent features of the pattern that were not explicit in the rule itself. | SE/TE: Lessons 1-2, 1-5, 2-1, 2-2, 2-3, 2-4, 2-5, 2-6, 11-1, 11-3, 16-11 |
