### Decision Making: Lost at Sea Scenario Part 1

Created by: [Name]

#### Notes by Students:

For this scenario, you will complete part 1 of a list of five decision-making scenarios. If you have other scenarios in your class period you may complete the reading system in a small group of 2-4 or you may work individually. You will read through the cases in order of importance, and if working in a group, coming to a consensus on a group vote rather than just group.

#### The scenario:

You are with an offshore petroleum supply vessel, in a remote area of a large offshore oil rig, 500 miles from shore, and the weather has become very rough. The vessel is slowly sinking. Your hands are on the controls of the vessel, and you are surrounded by critical equipment and fuel. You are the only person on board, and you are the only one who can operate the vessel. You are approximately 1000 miles from shore, and you are approximately 1000 miles from the nearest land.

Below is a list of 15 items that are on board and undamaged when the fire. In addition to these items, you have a portable radio with built-in GPS, a large enough to carry you, the crew, and all the items listed below. Critical contents of all containers, products, and vessels are marked with the word 'critical' below.

#### Part 1:

Your first task is to rank the 15 items below in terms of their importance to your survival. Please list numbers 1-15 by the most important item, the number 15 being the least important, and write down a number 1-15 for each item in order of importance to your group.

- 1. 100 lbs. of food
- 2. 100 lbs. of water

I created a functions.php file that I believe is properly formatted. The WordPress theme stylesheet is missing.Á ÁWordPress theme stylesheet missing, theme install failed, broken theme stylesheet is missing,Á Áthe following themes are installed but incomplete,Á Á stylesheet is missing. Now, copy the theme file which you downloaded.5. Paste those theme files inside newly created theme folderÉ. Login to your WordPress account through FTP.Open Root directory and find theÁ Áwp-contentÁ Áfolder.Select theÁ ÁThemesÁ Áfolder and open it. As I said , the WordPress will only recognize a theme if the style.css file exists. With a focus on business sites, it features multiple sections on the front page as well as widgets, navigation and social menus, a logo, and more. Fixing the eÁÁÁWordPress Theme Stylesheet Is MissingÉÁÁ Now that you know what causes what type of errors. Pro tip: WordPress have CSS guidelines you should follow eÁÁÁÁ ÁWordPress CSS coding standards Reasons for eÁÁÁTheme install failedÉÁÁÁ error in WordPress ItéÁÁÁs best to educate yourself about why the error occurs instead blindly applying fixes. For example, eÁÁÁTar.zip.ÉÁÁÁ Now upload this file to your themes folder. In addition to CSS style information for your theme,Á Ástyle.css provides details about the Theme in the form of comments. Step 6: Click on Choose fileÁ Ábutton. Method 1:Á ÁUploading from dashboard Step 1: Login to your WordPress admin area. 4. WordPress theme mainly deals with the front end layout and styling. According to theme development guideline eÁÁÁÁ ÁTheme development Stylesheet guideline WordPress Themes typically consist of three main types of files, in addition to images and JavaScript files. \*/ Generally, WordPress replies completelyÁ Áfor the presentation on the style.css file. Á ÁThis will work well in many cases and resolves the error eÁÁÁTheme install failed.eÁÁÁÁ Á Solution 5:Á ÁCheck for the file To confirm that the zip file(s) youéÁÁÁve downloaded file is a theme, unzip the file and check for style.css file. Solution 2: Upload or install theme correctly You can upload theme zip file in different way. Use it to make something cool, have fun, and share what you've learned with others. So, still none the wiser as to what caused the files to be deleted, but if you can check via file manager first to see whether youéÁÁÁve lost files in the theme folder, a straight delete and re-install might work for you too. stage.ottrial.pitt.edu/wp-content/themes/hashone/style.css?ver=4.7.1 stage.ottrial.pitt.edu/wp-content/themes/hashone-theme-child/style.css?ver=1.0 stage.ottrial.pitt.edu/wp-content/themes/hashone/style.css The one that's leading the pack is #3. Every WordPress theme must have a style.css file that in order to work properly. So the theme you are trying to activate or upload will not work properly. So, make sure you have installed the theme after uploading the files to theÁ Átheme folder. However, the changes I've made to the child theme stylesheet are only taking place in the certain sections of the site, while other changes are deferring to the parent theme. Step 7: Now browse your file and click on Install now.This leads to the rise ofÁ ÁBroken theme error in WordPress. Without checking, if you upload the entire zip file into WordPress and thinking the theme install would be successful, then you are doing wrong and you will getÁ Átheme stylesheet missing error. This will help you to troubleshoot more easily and efficiently without being clueless. Did I miss any other fixes? 1 Shares Solution 4: Open zip and rezip As mentioned in this article, You need to unzip the theme file and find the actual theme files. I hope you will be able to solve these issues without a sweat. Many times the beginners misplace this style.css file in the subfolders of the themes folder. If one doesneÁÁÁt work try the other ways. 2: Go toÁ ÁAppearanceÁ Áon your Dashboard. Each of these errors mainly refer back to style.css file. I then checked the eÁÁÁproblem websitesÉÁÁÁ using cPaneleÁÁÁs file manager and discovered that neither had their style.css in their subfolder > wp-content > themes > oceanWP, so at least that file must have been deleted for some reason in the last few weeks (?). This would surely result in showingÁ Á eÁÁÁTheme is Missing the style.css stylesheeteÁÁÁ error in WordPress. You did not stick to the official theme install guidelines here eÁÁÁ Adding New Theme Reason 2:Á ÁUploading the entire zip file Chances are the theme zip file youéÁÁÁve download contains all sort of files like eÁÁÁ demo content, export files, screenshot, license, guideline files and theme zip files. Step 4: Click on Add newÁ Ábutton. Now zip those theme files and upload only that zip file into your WordPress installation. Comment: Perhaps when updating a plug-in or the theme? IéÁÁÁm sure one of them will work. 'style.css' ). } When I used the inspect mode to see which CSS was overriding the child theme, I was able to confirm that it is definitely the parent theme. Iterate through them and find the cause for eÁÁÁÁPackage could not be installed. ItéÁÁÁs would be wise to know why the problem occurs. Let me know in the comment. IéÁÁÁÁI try my best to help you out. However, there are three CSS files operating at once and I have no idea how to rectify this. The stylesheet mustÁ ÁProvide details about the Theme in the form of comments.Á ÁNo two Themes are allowed to have the same detailsÁ Álisted in their commentÁ Áheaders, as this will lead to problems in theÁ ÁTheme selection dialog. That way better to fix the problems than to equip yourself with full knowledge about the errors. 1 Shares WordPress Themes contain files that are needed to work to create the design and functionality of a WordPress site/theme.
